

Vila Real de Santo António - Land

 2567

Land Area (m²)

1 143 000 €

(EUR €)

Plot for the construction of a luxury villa

Land for the construction of a luxury villa

With stunning views of the golden shores of the Atlantic Ocean, the lands north of the resort have been reserved for those who want to design and build a one-of-a-kind residence that caters to their specific needs and tastes.

You can employ your own architects and builders, or alternatively, work with our experienced in-house team of architects, designers, and project managers to create the home of your dreams.

Owners can choose the design of their villas, but they will be subject to approval to ensure that the investment you make will not be affected by projects that are not up to the resident's standards.
